Our Company

Pro Pro is a shortcut of
“**PRO**ffissional in **PRO**duction”

This is a connecting story where a great blend of genuine positive marketing, sales and production experts with more than 60 years of accumulative experience joint hands together with a state of the art factory facility in DIC to cater the market needs and decided to start up a productions and tech. design boutique to conceptualize, manufacture and create memorable consumer experience for all types of POSM , POP, brand activation in a fresh, trendy and modern new approach to market trends.

Mission

To help our business partners achieving their goals in short time and competitive price while focusing on the 4th dimension in retail architecture by manufacturing and conceptualizing, emotional displays with focus on brand revitalization with a glimpse of digital merchandising expression aiming to a new phenomena in shopping happiness .

Working together

PRO PRO as the sole agent of Sigma Factory For Steel Products (SFSP)with a tight business relationship will give you a high competitive advantage from technical consultation and design application, hands on precise fabrication, easy and on time logistics through GCC & MENA region, providing the best competitive rate in the market In fact (SFSP) is one of the leading steel fabrication factory in the region with state of the art facility, robotic machinery, extraordinary capabilities.

Working Together

Let's keep it simple,
If you are an agency, we can share our experience in both design and manufacturing. If you are a brand owner, we can work together to enhance your product/ brand market presence by conceptualizing and creating memorable emotional stories that lasts...

You Design, We impliment

We would like to invite you to visit our state of the art facility located in DIC,
We can also come and meet you at your convenient to share experience and benefit each other

Creative Idea

Since we have the extraordinary production facility and capability, and also since we have the know-how and the practical experience in the market, our vision is to add more to the industry by helping business partner to achieve their goals in the shortest time possible, using the best solutions with the most competitive price.
